FEEDBACK ON CURRICULA FROM VARIOUS INSTITUTIONS:

Note: Kindly give branch wise comments on first two points. For point no. 3, general comments can be given. And keep the same format as given below. You can add/delete the row according to number of your branches/discipline.

Name of Institute: **Government Hydro Engineering College, Bandra**		
Affiliated University/Technical Board/Others: HPTU Hamirpur		
Name of Syllabus Scheme being followed presently: NEP		
Critical Points on which feedback is required	**Name of the Branch (Whichever applicable)**	**Feedback**
1. Relevance of the Curriculum wrt Industrial Requirements	CSE(AI&DS)	The currently introduced curriculum of HPTU for CSE (AI&DS)-NEP, demonstrates a reasonable alignment with industry requirements, particularly in core technical areas such as python programming, computer networks, and software engineering. Recently the curriculum revision has taken place after 8 to 10 years considering the industrial requirements and taking due inputs from AICTE model curriculum.
2. Impact of following AICTE model Curriculum	CSE(AI&DS)	AICTE Model Curriculum is designed and provided by the experts of specific domains to all technical institutions to maintain a minimum technical academic standard across the country. It promotes a balanced approach between theoretical knowledge and practical skills, with a focus on outcome-based education. Additionally, the model curriculum encourages flexibility through open electives and skill-based courses, helping students stay aligned with current technological trends and industry needs.
3. Feasibility of revising curricula on yearly basis to incorporate fast technological changes which make to the students industry ready and enhance their employability	While revising the curriculum on a yearly basis to keep pace with rapid technological advancements is highly desirable for enhancing students' industry readiness and employability, its practical feasibility presents certain challenges. However, the core curriculum may be reviewed periodically (e.g., every 3–4 years) considering industry needs and annually minor changes may be incorporated as and when required. This approach may ensure stability in foundational subjects while offering agility in emerging technology areas, thus maintaining curriculum relevance without disrupting academic continuity.

Report on Visit to GSSS Bandla for Science and Mathematics Promotion

As per Office Order No. 18 dated 20/01/2025 issued by the Director cum Principal, Government Hydro Engineering College, Bandla, I, Vinay Sharma, Assistant Professor, Department of Mathematics, visited GSSS Bandla on 21st and 22nd January 2025 to promote interest in Science and Mathematics among school students.

During the two-day program, I conducted interactive sessions for students of classes 9th to 12th, covering fundamental and advanced mathematical concepts with real-life applications. The sessions included topics such as algebraic problem-solving, geometry through models, and basic calculus applications. In addition to lectures, I conducted quizzes and group activities to make the sessions engaging and encourage active participation.

Students showed keen interest and responded positively, especially during the problem-solving sessions. Teachers of the host institution appreciated the initiative and requested more such engagements in the future. The overall response from students and staff was enthusiastic, reflecting the success of the visit.

After completing the assigned task, I returned to my institution and reported accordingly. I express my gratitude to the Director cum Principal for this opportunity to contribute to school-level education in Science and Mathematics.

GATE SCORE COMPUTATION

The GATE 2025 score is calculated using the formula:

$$\text{GATE Score} = S_q + (S_t - S_q)\frac{(M - M_q)}{(\overline{M}_t - M_q)}$$

where,
M is the normalised marks obtained by the candidate in the test paper mentioned on the GATE 2025 Score Card
M_q is the qualifying marks for general category candidates in the test paper
$\overline{M}_t$ is the mean of marks of top 0.1% or top 10 (whichever is larger) of all the candidates who appeared in the test paper
S_q = 350, is the score assigned to M_q, and
S_t = 900, is the score assigned to $\overline{M}_t$

In the GATE 2025 score formula, the qualifying marks (M_q) for the general category candidate in each subject will be : Cut-off marks for GENERAL category = max(25, min(40, μ + σ)). Here μ is the mean and σ is the standard deviation of positive marks of all the candidates who appeared in the test paper.

M is the normalised marks obtained by the candidate in the test paper mentioned on the GATE 2025 Score Card
M_q is the qualifying marks for general category candidates in the test paper
$\overline{M}_t$ is the mean of marks of top 0.1% or top 10 (whichever is larger) of all the candidates who appeared in the test paper
S_q = 350, is the score assigned to M_q, and
S_t = 900, is the score assigned to $\overline{M}_t$

In the GATE 2025 score formula, the qualifying marks (M_q) for the general category candidate in each subject will be : Cut-off marks for GENERAL category = max(25, min(40, μ + σ)). Here μ is the mean and σ is the standard deviation of positive marks of all the candidates who appeared in the test paper.

Key Indicator 5.4 Alumni Engagement

Item No.	Particulars
5.4.1	**Is there a registered Alumni Association that contributes significantly to the development of the institution through financial and/or other support services?** The inception of Govt. Hydro Engineering College, Bilaspur was established in 2017, marked by the launch of its Bachelor of Technology program. Since then, a remarkable journey has unfolded, witnessing the graduation of **four** batches. Today, the esteemed alumni of this institution adorn influential positions across diverse industries, academia, and other spheres. The Govt. Hydro Engineering College, Bilaspur, stands committed to forging a cohesive platform that unites its alumni, fostering both personal and professional support through a collaborative spirit of "Self Help." While the dedicated space for the alumni association on the official website is currently in progress, the college has ingeniously established an online nexus through various social media conduits and direct interactions. This platform serves as a hub where the institute's alumni converge to further the welfare of current students. The foremost objectives encompass career counsel, guidance, and catalyzing placements. The alumni convocation transcended being a mere event, metamorphosing into a dynamic interface where present students could rekindle old connections, engage in nostalgia, and grasp the trajectory of their predecessors. The event transformed into engaging sessions, like a wellspring of knowledge flowing from successful alumni to empower today's students. The fundamental goal driving this alumni community is to cultivate a vibrant global network that blends with the college's progress. Alumni play a big role by joining in guest talks, career discussions, workshops, and more. This give-and-take relationship is further strengthened through direct mentorship, guiding students as they navigate their paths to professional growth. ● The prime focus of the alumni engagement is on: ● Planning and organizing successful reunions, which the institute has initiated from the academic year 2023-24 where 1st alumni meet of the institute was organized in 29 July 2023. ● The institute is dedicated to organizing such events every year to provide direct interaction and benefits to the students studying at the institute. ● Involving alumni in student development through participation in ongoing academic activities including teaching, research, workshops, conferences, placements, etc. ● Initiating a process to promote the relevant fundraising activities to the development of the college. ● Promoting best practices in different areas of social life for the benefit of society. ● Promoting the possibilities of raising funds for research and scholarships for needy students through alumni contribution.
